## WORK EXPERIENCE

**Symantec Corporation**, Mountain View, CA

Jul 2015 – Jun 2017

Machine Learning Engineer, Center for Advanced Machine Learning

- Worked as the only non-PhD in a team of 10, with the consulting of ML pioneer Ruslan Salakhutdinov.
- Led an R&D effort that resulted in the dramatic improvement of known and unknown malware detection rates on 100+ million endpoints worldwide.
- Developed a ML model that caught and blocked 22 million attempts of the global and infamous “WannaCry” ransomware attack.
